PROFILE

Frontend developer experienced in building responsive, accessible, and performant web and mobile interfaces using React, Next.js, and TypeScript. Collaborated within cross-functional product teams to convert designs into pixel-perfect UIs, integrate APIs, and optimise application performance and load times across devices.

CORE SKILLS

TOOLS & LANGUAGES	TECHNICAL	COLLABORATION
● React, Next.js ● TypeScript, JavaScript ● Tailwind CSS	● State Management ● CI/CD, Agile Development ● Mobile Animations & UI	● Git, GitHub ● Jira ● API Clients & Integration

PROJECT EXPERIENCE

Frontend Developer | *Symphony Ent. — Music platform for aspiring artists to find investors and sponsors* 2025

- Collaborated on project planning, monitoring, and delivery within an agile team.
- Contributed to a state-management architecture supporting a reliable, scalable UI.
- Helped optimise caching and API query handling, improving UX by 20%.

Frontend Developer | *CitiWheels — Ride booking app (React Native)* 2024 – 2025

- Contributed to responsive, accessible interfaces ensuring consistent quality across mobile platforms.
- Supported cross-device UI implementation for both rider and driver applications.

Frontend Developer | *MBA Secured Ltd. — Website for a UK-based security expert group* 2023 – 2024

- Converted UI designs into pixel-perfect, responsive web pages.
- Contributed to improvements in navigation flow and page load performance.
- Helped improve load time and SEO performance by up to 7%.

Frontend Developer | *Movee — Free movie streaming platform (React Native & Next.js)* Since 2023

- Contributed to streaming API integration and file-download functionality.
- Supported development of cross-device file sharing with real-time system access.
